SUMMARY

Junior Full Stack Developer.

I learn to code by building projects, use online resources like Free Code Camp, CS50, and books, such as: You Don't Know JavaScript, DOM Enlightenment, JavaScript Design Patterns.

I love to build projects that save time on the long run and automate daily tasks.

EDUCATION

2018 - Present

- Back End courses and projects

Technologies used:

PHP, MySQL, MA tools, REST API, SOAP API

- Free Code Camp Front End Development Certification.

450+ Hour Program

Technologies used:

HTML, CSS, JavaScript, Responsive Design, **jQuery**, JSON APIs and Ajax, Algorithm Scripting, **React**

2017 - 2018 HARVARD'S CS50 COURSE

Computer Science Fundamentals.

12 week program

I worked with:

C, Python, HTML, CSS, JavaScript.

SELF LEARNING WEB DEVELOPER

PROJECTS

Elo rank calculator – Full Stack App with a scoreboard

- A user can add players and the outcome of a game
- A scoreboard display of players and their ELO
- All data is saved to a MySQL database

Pomodoro Clock - Time Management Tool

- User can start/stop the clock and modify the length of timer/break
- The timer is set with the help of Date.now() method so it runs smoothly when tabbed out of the screen and it displays time left in the title of the webpage

Calculator – Mouse only JavaScript calculator

- Multiple operations can be chained together
- When clicking »equals« multiple times, calculator uses the last operation and repeats it

To Do List – An application that displays to do's

- The user can add/remove/edit to do's
- The user can toggle completion of a single or all to do's at once
- The application uses local storage

WORK EXPERIENCE

2018 – Present Frodx d.o.o.

Working on several projects of varying difficulty on both the Front End (Basic webpage setups) and the Back End (database and marketing automation tools connections).

2015 – 2018 Krka d.d.

I simplified the use of an Excel inventory tracker table with Excel VBA, considerably speeding up daily workflow

Endorsements:

»I knew I could always count on him for everything to be done as it should be. He is very precise and always ready to help.«

~ Janez Mežan, Senior technician/Group leader

»He is an incredible person with huge potential.«

~ Andreja Marinič, Head of Department

ACHIEVEMENTS & CERTIFICATES

- Certificate of Advanced English - Cambridge English(JUN 2017)
- I built an open source project for beginners to learn git/github

I encourage you to check out my github page linked at the top, to see all my projects and what I am currently working on.
